

## Human Food GMP Course Outlines

---

### Course Outline for FDA-cGMP Food Industry Training

---

#### **Course objective**

This training course has been designed for individuals involved in food industry. It offers an introduction to food security for state and local sanitarians, USDA FSIS field inspectors, and HHS FDA field inspectors. With the current threat of terrorism against the US, it is critical that the food industry from growers to retail be aware of the threat and of the guidance materials available from regulatory agencies to help address food security concerns.

#### **Course length**

2-3 days (a few hours everyday) are required to complete the FDA-cGMP for Human Food Training.

#### **Who should attend**

Anyone who do not have time to allocate a full day to take a LIVE class on the cGMP and 21CFR110, wants to quickly and efficiently understand what the FDA's GMP for human food manufacturers is about, and implement the GMP without using a consulting firm

#### **Course includes**

The structure of the training is as follows:

- Subpart A--General Provisions
  - 110.3 - Definitions.
  - 110.5 - Current good manufacturing practice.
  - 110.10 - Personnel.
  - 110.19 - Exclusions.
  
- Subpart B--Buildings and Facilities
  - 110.20 - Plant and grounds.
  - 110.35 - Sanitary operations.
  - 110.37 - Sanitary facilities and controls.
  
- Subpart C--Equipment
  - 110.40 - Equipment and utensils
  
- Subpart D [Reserved]

## Human Food GMP Course Outlines

- Subpart E--Production and Process Controls
  - 110.80 - Processes and controls.
  - 110.93 - Warehousing and distribution.
- Subpart F [Reserved]
- Subpart G--Defect Action Levels
  - 110.110 - Natural or unavoidable defects in food for human use that present no health hazard.
- PART 110--CURRENT GOOD MANUFACTURING PRACTICE IN MANUFACTURING, PACKING, OR HOLDING HUMAN FOOD

### Worldwide Course Recognition:

CALISO online training courses are recognized by all registrars and hiring companies as objective evidence of effective training on the particular standard and regulation. Since 1999, they have been the most popular and most widely used training courses in English, with over 15,000 trainees in the US and worldwide. The standards and regulations are provided online under licensing of the American National Standard Institute (ANSI), SAE International, or courtesy of the Federal Drug Administration (FDA).

### Course requirements

The training is optimized for Microsoft Internet explore 5.0 or higher and Netscape 4.5 or higher

### Certificate requirements

The course uses a continuous evaluation method with on-going quizzes to facilitate the information retention. If your final average is equal or greater to 70% you will be issued a **training certificate**. If your final average evaluation is less than 70%, you will have to take a final exam and score above 70% to be issued the training certificate.
