Worldwide Course Recognition:

All registrars recognize CALISO online training courses and hiring companies as objective evidence of effective training on the particular standard and regulation. Since 1999, they have been the most popular and most widely used training courses in English, with over 20,000 trainees in the US and worldwide. The standard and regulations are provided online under licensing of the American National Standard Institute (ANSI), the American Society of Automotive Engineer (SAE), or courtesy of the Federal Drug Administration (FDA).

Course requirements

- The training is optimized for recent version of Microsoft Internet Explore Google Chrome and Firefox.

Certificate requirements

The course uses a continuous evaluation method with on-going quizzes to facilitate the information retention. If your final average is equal or greater to 70% you will be issued a **training certificate**. If your final average evaluation is less than 70%, you will have to take a final exam and score above 70% to be issued the training certificate.
